Wed. July 30/03
Sunny
+40°C

- with David Terry + Jack
Denny + Otto Janout (owner)

① VG ^{ingtz. veinlet in intrusive} along Great Western rd.
on north end of magnetic
- adj. to diorite dike (alt'd)
4.5m

Photo - Look N towards Athabasca
dump (Nelson Lk. to rt)

Photo - #1 (new) showing trench

03TR-7 (17.3-19.3m)

Photo 03TR-~~4~~5

- near DTH 42 (above)
Note: Qtz veinlets in trench ^{parallel to direction of drill (i.e. missal)}

03TR-4 - tr. go. magnetic
dioritic dyke in intr.

Photo Look N over TR. 3-4-5

03TR-6 - mylonite zone in GM zone
(just below DTH #8)

DISCOVERY AREA: 03DA-1

Photo (Trench above (surface prop.) of VG in ddy)
- nice goethite on frac. (1v6)

884521
LIVER, CANADA
OF

L2-L3 Area

03TR-15 - nearby DPH(56)
had some VG in volcs.

Photo: Looking W across L2
(intrusive - volc. contact)
(Hammer (dog) + back for scale)

→ Contact of volc. (tep + py)
+ intr. - 'juicy'

- ① KENA Tue. Oct. 201
- Linda Dandy, Bernie Augsten
 - with David Terry (+ Dave Grier)
 - Otto Janant - prospector (vendor)
 - 4 holes completed in 2nd phase
 - (to date -

1st Phase 7 ddh ~ 900m
(under trenches)

2nd Phase - Line 11 step out
(to 300m) → W
- step to next line N (~200m)

Alt'n
Ksp + alt'n (silica-sericite)
→ L18 ddh (~800m N) + tourmaline
L. 17 test 7g Au
→ L. 4 south (1.4km total N-S)

BOK - '81 Budget 2nd phase
> 5000m ddh 4200m

✗ Check '01-08; ~ 2m of 5 opt Au

Norman of Lacana - N 25 diphen(s) can
(to E of current interest) ~ 71 daly total

② Great Western prop. - after trap
Lab Boarder, also Tough nut
option from Lloyd Addie (Press Ref.)
"Gold-only" system - native Au
→ Au in gtz; Au on edge of PY green
- Newman Rpt. (Richard Gordon)
→ 95% rec. of Au (10 Ag)

Examine
DDH 01-09 - 20 m wide 'fault'
zone (fabric in intr. - chlorite
+ PY) ~ 200 m W of trenches

P.O. PENHALL LTD. MADE IN VANCOUVER, CANADA
DURABLE WATERPROOF

Gold Cup + Tamarac mines
to SE (optioned)

Head Zone
Geol. Res = 100 mt @ 65 g/t Au

Photo: Holes 1, 2, 3 (+ gang)

Photo: Hole #11 on Line 12 (currently
drilling)
- incl. 2 ft. gtz vein with ~~CPY~~ + VG.

KENA

Thurs. Sept. 28/00

- with Paul Wilton

Sunny +20°C

- Linda Dandy + 10th ^{lanouff} (owner) 090° most important?

[Note: David Rhys had just completed a structural examine for Sultan Minerals]

[Sultan office in Salma]

- up Gold Ck. logging rd. @ ~ 5.5 km

2 ddh (up to 1500ft)

along Cat-Shaft Trend!

[Ref. GCNL - Jan 14/00]

- Silver King - porphyry (Au) zone

- Gold Mtn. zone - gold

Budget: ✓ \$200k (pd. for \$75k more)Photo: Silver King por. trench (new) _{~ 13th Au}Photo = look S to Kena Gold
- Salma - Nelson Hwy
↓ zone
across
Gold Ck.Photo Cat zone
(never been drilled)- min. 1 ddh planned - good (7.5% Au)
- if good - 1 ddh in shaft zone

KENA Gold Zone - "Main" Trench

(reported in late 1800s by G.M. Dawson)
 Ken Addison - 1981
 Lacuna dth in 1987 (exp #1)
 (also found in 1989)

1 to 2 g/t Au (10-20% Pt)
 - up to 20 g/t Au in some massive Pt.

Photo - look E over ↗

~~Photo - look N to Nelson from
 Copper Zone~~

av. 0.28 g/t Au
 = cpy in all'd E. or dth

Photo: Core Area (1991 dth)

Warranty

Deepest hole ~ 1190 feet (av. 0.5 g/t Au)

KENNATue, Oct. 1/02
Sierra (snow yesterday)

- with David Terry

- Linda Dandy, Bernie Augster

2000 Exp.750K more in '02 + ~750K (prints to Aug)
∴ Total ~ \$1.5M

Airborne survey (7x3 km) - Rad/metric

~~CONFIDENTIAL~~ - First hole of "Kinross" ddh- deepened '01-10 → "Good VG (+ minor MoS₂)"

- 2 drills - 1 on Gold mtn zone

→ (L2 → L14)

- 2nd drill on Great Western Starlight

'Fill in' on Gold Mtn. zone

- ddh on South Gold zone

Kinross had \$2m flow-through - had to
spend by end-'02 (incl. ~500K by end-'02)→ Ron Stewart - VP, Kinross (Tor.)
(pre-Chris Rockingham (Tor.))ORE: Hole #10 (deepened) - VG
