Budget for the property (in round figures): \$385,000

MINISTRY OF ENERGY, MINES,
AND PETROLEUM RESOURCES
Rec'd 1993 12 2 1993
PRINCE GEORGE, B.C.

Diamond drilling: Number of holes: Total Metres:

Percussion drilling: Number of holes: 6 Total Metres: 558

Trenching: No Yes Metres Test Pits: No Yes Number 280

Geochemistry: No Yes Geological Mapping: No Yes

Linecutting/grid. prep.: No Yes Km

Geophysics: No Yes Type: V.L.F. I.P. Mag Other

Other work (e.g. road, aeromag., bulk sample):

ARBORNE EM-MAG.

Overall, do you feel the results were: Very Encouraging Encouraging
Mixed Disappointing
More work needed Results awaited or being evaluated

Do you think you will be back on this property next year?
Yes Possibly Undecided No

Any comments you would like to add? (new finds, good intersections, best assays, comments on geology):
Use back of this page or additional sheets if required.

20 meters of 2.1 gpt Au + 0.51% Cu were intersected in magnetite skarn mineralization along strike + down-dip of previously drilled areas of the property.
