

# LAKEVIEW

Sat. Aug. 15/87

with BM + DM

Cloudy 17C

- Linda Dandy - log cabin in Pine Crk. subdivision
- Dave Strain

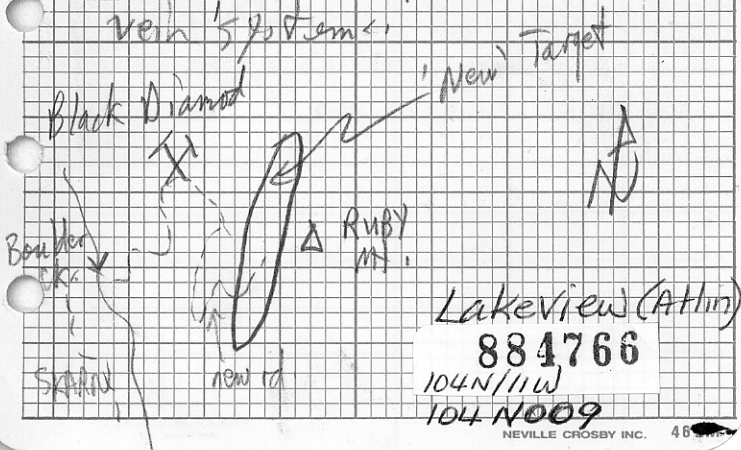

1) gte-carb vein in ultramafics/mafics shear zone (40 veins) E ~ 200m long lakeview

2) skarns - SW flank of Ruby Mtn (east of Black Diamond tungsten prospect)

- west & east sides of Boulder Crk.

-> no gold but good Ag, Sn, W, Cu, Bi.

Lakeview - at least 4 main vein systems

Diphen Survey (enhanced magnetics  
+ total field magnetics)  
show ultramafics + alt'n  
very well!

TARGETS - edge of ultramafics  
(= gtz + leaching).

Photos - Looking NE towards Lakeview  
+ Ruby Mts.

- Looking NE towards Lakeview  
+ Black Diamond.

- Looking W towards Lakeview

- Looking NE over Boulder Ct.  
skarn trenches towards  
new skarn on Ruby Mts.

Thurs. Sept. 1/77

- talk with Bob Hablin in Houston  
re-sibola cls. + also Fenton  
CK area.

LAKEVIEW (with Noranda  
+ John Bot)

2 pics looking N-SE across  
lakes + access rd. to left +  
Houston valley to it,

north end of trench

angular chloritic frags. string out in acid  
pyroclastic  $025^{\circ}$

Dykes of unmin. ands. in  
acid pyroclastics.

Vein pinches + swells

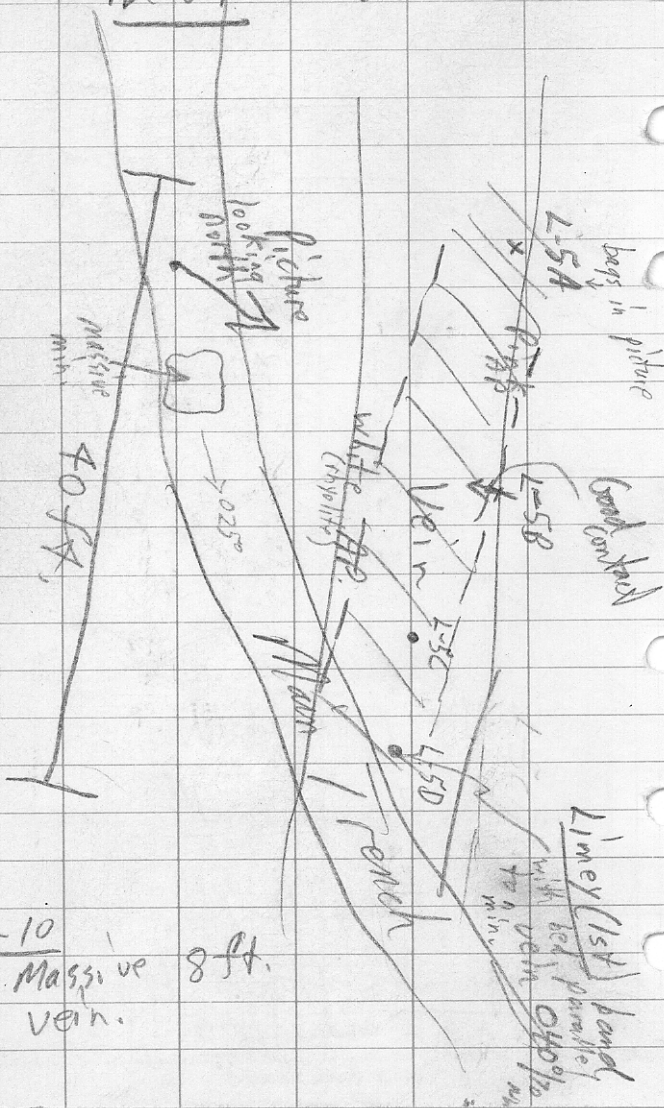

- radiating tremolite xls,

- Upper Trench ~ 1000ft. long - white  
to pink A.P. - ands. dykes. Non-min.
