

LEXINGTON/GRENOBLE May 27/92

- chat with Murray McLaren - Director with Britannia Gold Corp. (incl. Joe Shearer work)
- 'classic' detachment - style scenario (a' la Overlook mine setting to south in Washington)

Ex. overlook

Thesis at Univ. Eastern Washington by Mike Rasmussen
- ID fayalite (altd serpentine/olivine)

- Murray to get me (access to) rpt. on Lexington in a couple of weeks
- Crown Jewel / Lonestar deposits on Washington side of border = lots of Canadian potential!

Dec. 21/92 - Murray 'very excited' - core shack at Roundup
- Porphyry Cu potential? - not really (Jurassic)
vs. Tertiary gold event

May 15/98

LEXINGTON

- talk with Ken Daughtry (at Tzc)
- Echo Bay optioned/ing property from Britannia Gold.
- Project currently on "care & maintenance" program

Sonora

Sonora Mining Seminar

Vancouver, Canada Dec. 9/92

November 10, 1992

→ LEX 267011
