Yup - too close for my liking - BUT, still a huge majority for BC politics! Yes, Newcrest has/is (seriously) snooping around. There are others, too (incl. Gold Fields); however, I'm still 'cultivating' them - so stay tuned! In the meantime, I suggest you 'promote/sell' Limonite Creek in light of its REGIONAL play for high-level porphyry/epithermal Cu-Au-Mo deposits (e.g. Equity Silver, Louise Lake, Zymo +?). Let me know if I can 'help'.

Well guess the election was OK for mining though a bit too close for comfort.

You said after the election you knew a company that might be interested (ABX ?) in limonite creek?

I hear Newcrest is wandering around BC looking at Alkaline porphyries ?

regards
