

LINQUIST

884911

MEMO - July 1/84 by Ron Smyth

Reserves: 275,000 tons @ .313 g/t Au ^{10.7 g/t}
8.57 g/t Ag
274,249/t

→ proposal to allow mining

Est. by COMPLEX Res.

Direct revenue from exploration	\$22 million
Direct + indirect job creation	240 persons
Direct salaries	\$14 million

Oct. 7/82

Michael Renning (Guardsem Res.
- current owner of LINQUIST)
called re-interest/proposal from
Rex Pegg (rep. a NASDAQ-listed
company for a BC gold property
with "resources"). → TGS's return
in CIM SV 37, p. 186 (#173-Table)
→ TGS gave MR dates of info on TGS's
property file (CONFIDENTIAL) → i.e. TGS suggested
Rex Pegg contact Teck (i.e. Randy Farmer) for
Teck's Golden Belt with info → TGS

574452:000
574200:000
1050000
348000

LINDQUIST

Oct. 22/90

- call by Bill Meyer - Teck
- concern about fulfilling 'commitments'
i.e. spent ~ \$800,000 + concluded
target is too small for them.
Geo looking to 'farm out'
- est. tonnage ~ 200,000 tons
@ .25 opt Au
→ stkwk. type vs ^(gtz) vein type
- feel the actual 'vein' is more
like 8.5 cm wide (of. 8.5 ft.)!
- VGS suggested submitting documents,
etc. directly to Bruce McKee.

~~Mr. Brock~~

Planned '91 5 holes @ 1000' each = 5000'
- step back to west

Feb. 8/91

Meeting: Bill Meyer, Peter Folk, Wayne Spilbury - TECK
TOS, Ron Smyth

\$36M @ \$500 Au

Lindquist ~ 73,000 oz Au equiv. resource
incl. ~ 180,000 tons @ tellurides
loss. 350,000 tons @
~ 500,000 tons
- Equity Silver looking at.
- excellent ground
- still potential
along strike (down dip)

73,000 + 10,000
365 + 1000
365 + 1000

Jan. 7/00

LINDQUIST / DEER HORN + ZINC BAY

- meeting (confidential) with Michael Renning
(ex still in expl'n; now with BC Hydro + ^{recently} family)

- Mike + Scott (?) have gained control/ownership of the above props. in the 'Recreation' area at the north end of Weedsmuir Park (i.e. gov't auction a few yrs. ago) → ind. Teck drilled few holes in early 1980s

- Confidential - deal with Repadre Capital (Toronto) depends on tenure status of 2 props.

Target

Porphyry
Related

Mike + Scott want opportunity/assurances that they can stake/re-stake ground (up to 20 units of 16 units) that will adequately cover their area of interest

- Lindquist has Au-gtz veins, plus (talus) tungsten anomaly (upslope to W.) → Bismuth?! (Bi)

→ Potential for intrusion-hosted related Au (i.e. a 'Fat Knox' logo?)

→ MFS did work on prop. in '99 (incl. Joyce Warren work + Horne (if req'd))

→ plan decent program in 2000

→ want ASB (porphyry expert) 'help' - MFS?!
