Subject: Deerhorn - Lindquist Lakes Call for Proposal

I met with Scott Gifford this afternoon as he had some questions on his titles. He also asked about any information that may exist from the days when this property was first made available via the Call for Proposal, subsequently won by Golden Knight Resources Inc. In or around 1989 the ministry put out the call for proposal for a work program and the best program won the titles.

Scott is looking for any information that you may have from this issue.
