

LORRAINE

885077 July 31/01

- chat with Glen Garratt
- ddh to commence on Aug. 4th (Britten Bros.)
- Jay Page to 109 core
- raised ~ \$0.75 M to date (expects to raise more!)
- Giles Peatfield has done a 'masterful' job of re-interpreting geological 'model'
→ he will spend some time re-logging old core!
is not a 'typical porphyry' rather, has analogies to IOCG dep.
- 3 pulsed types of mineralization: i) Cu; ii) Cu - Au; iii) Au-only
[± Pd (assoc. with 'pyroxenites')] [+ Fe₃O₄]
- Major investor (South Carolina) (Myrtle Beach) tour of project ~ mid-Aug.
- Heavy/late snow → road to property just re-opened last week!
