

NEVILLE CROSSBY INC
MANAGER B.C.

LUMBY - NI 82LSE-006
July 7/94
+31°C

- see file

Bsb, Yargau - Mine Manager
(ex - Mosquito Ct. Gold manager) → on job ~ 2 mos.

TONY SEMENIUK - 'manager'
in charge of test mill operation
in Lumby Industrial Park

'MINESITE' - tel. 547-2346

- approx. 18 persons on site
(incl. 7 contract w/g miners,
incl. Ed Braker (ex-Baker/Blackdog))

- target on upper level is
graphite/sericite (not Au)

31 'grades' stock piled:

- shiller 1 - high grade, fr. gr. graphite
- shiller 2 - shiny (slikensided) graphite
- shiller 3 - olive green

sericite/muscovite
ore piled outside in area
for trucking.

excellent haulage road
(for 35-40 ton tandem ore truck)
camp (miners) - 4 trailers at
old (lower) mill site.

② Bob Y. says he does NOT
have any of the old records,
ie, like starting over,
→ 'reserves' currently est. @ 30m tons
@ 20% to 30% schillerite.
- est. schillerite to sell for \$1/lb.
tel. 547-2522

'Millsite' - purchased 2nd hand
(good) mining equip., incl. a
SAG mill, flotation cells,
assay lab (ovens), conveyor
belts, etc. Have to be careful
with crushing. Will need to
'experiment' as they go.
Obviously will need permits
for 'tailings'
- Pilot prod. to begin in a couple of mo.
