Subject: MAGGIE - Core to be Dumped?

Mike, Had a call from someone who had recently talked with Louise Eccles (geologist) who owns/operates a large ranch across the highway from the Maggie porphyry Cu-Mo +/- Au? deposit. Apparently all the core, which many of us have driven by many times, just off the side of the highway, is on someone else's private land and this person has made it known that he/she plans to "get rid of it". Another horror story? If you want to 'salvage' some select specimens, perhaps you want to call Louise at 250-457-9112. You can mention our 'conversation'.

Tom
