92H5W043 Nov. 27/86

MASTER ACE

→ east flank of Mt. Outram

- Dan Cardinal - consultant from Hope
- rep. Newjay Res. Ltd.
- MT 92H/5W - 043 - misplotted - sent change today to Victoria.

- gold-silver-platinum

1930's - shear zone with abundant (en echelon?) quartz veins traced for over 2 miles
assayed 0.5 oz/t Au equiv over 25 ft.

- old workings filled with rk. debris
- " " not found by lookers over last few yrs. (misplotted!)

- arsenopy. + sperrylite-platinum arsenide

- ultramafic (serpentine) in structure which dips steeply to west.

→ probably drilling next yr.

- no rd. access 6500' to 4000'
