MIDNIGHT / IXL Mine
— Rossland

July 19/99

— chat with Terrence

— Plan a 10,000 tonne UG bulk sample from Midnight (IXL) mine at Rossland

— [need to 'fix up' squeezing timbers]

— ~~owner~~ owner = Miners - made deal with mill owner (south of border - Northpoint?)

→ ship bulk sample for 'pre-processing' then to Fehal Bay's mill at Kettle River

→ gold at contact of andesite and ultramafic
→ want to improve recoveries in HW ultramafics (i.e. > 0.3 g/t Au).
