@ present doing u/g work

- have encountered 70' vein (or 7?) of Au - Aspy @ .35 oz?
 - 3-4 assays have said it's the purest Aspy in BC
 - are able to get 87% of gold in cyanide soln in 4h.
(200 mesh)
 - no impurities other than As.
- ok to look around property
 - 20 mile logging road S. of Bella Coola Hwy - don't need 4w drive. - active logging lower part of road.
 - said I would call next week to see if he may be on the property - he might take us u/g
 - otherwise - just an u/g exploration (mainly drilling?) crew there - no geologists - no maps...

- maps today. → sample → old dump. → no cement.

NO GEOLOGICAL MAPS.

→ old co. maps. start of Mandy Report }

Bella Coola 17 miles past Tatla Lake
→ south. → logging rd → 5 am bar.
→ Jalenko Lodge →
hill be @ mine.

MOUNTAIN BASS
