NEVILLE CROSS

MOUNTAIN BOY

Wed. Sept. 1/99
Fog, Sun

Stewart

Randy Kasum (Bitter Cr. Cafe)
Frank (Pres); John Robbins - on board

- Ed Krukowski - hand blasting

15 km NW of Stewart

- Access rd. (~7 km) up from Stewart rd (N. side of Bear R. bridge) - good road (steep at end)

Banded (+ wavy)

- n vein - Barite + ZnS + Ag + Mat. + (PbS)

black + yellow

- Concord doing I/O

- Jasper (Rhodochrosite company)

Analogy - Turbidite (maybe Tuff Cr.)

\$50,000 - Budget (say \$30k expl'n)

- steep (switch back) rd., access
- Got lots of samples (+ mapping) but no \$ for assaying

Grades

Break Even = 16 ppt Ag, 5% Zn (+ bar)

Main Zone = Mann Adit - photo

- steep (75°) dip E - Cat + Backhoe

To Min. Adit - caved (+water)

- Also, "High Grade" Vein (higher up
in very steep country)

Photo: ~ 200 tons of 'ore'

Stockpile (16 pct Ag, 5% Zn)
