Tom:

Re: Exploration Data; Exploration Review Paper / NWMA Talk etc.

I would appreciate any information you could provide to help with the "BC Exploration Review". You can focus on the items listed below - but please add any other info you consider pertinent:

1. Any updated data or info from your "Health" Quarterly or M.R.'s - on High Profile or Major Projects - or issues.
2. Suggestions on:
 - 1) - Projects to highlight
- include notes or comments for each
 - 2) Statistics to Emphasize
 - 3) Issues to emphasize
3. Colour Slides: (to be returned!)
 - 1) 1 to 4 Slides from any major projects visited - with descriptive notes for each.
 - 2) Any Graphical Representations of data or stats.
- 4) Any info from Goldfile (your project) that might be useful here.

Thanks for your help. Tom.

Rich.
