

NEWMAE

Aug. 25/98

- chat with Bill Morton (Eastfield/Wildrose)
- Ascot drilled ~ ~~2~~ holes; 3 along one <sup>EW</sup> section + 1 off ⇒ no (economic) <sub>joy</sub>
- intersected well alt'd (yy-ps), hydrothermal system ~ 60-70 m below colluvium (ie. donut-shaped Tl anomaly due to)
- still potential to north (~ 20km)
- [Ascot probably won't continue plan]
