# The Jade Mine

## *Jade - The Stone of Heaven.*

**"One can put a price on Gold,  
but Jade ... is Priceless."  
Chinese Proverb**

### From Our Mine...

### *To You*

Welcome to the Jade Mine, a division of Jade West Resources. Jade West is the world's leading producer of Jade (Nephrite) from our mines in northern British Columbia, Canada.

The World's greatest jade carvers make annual pilgrimages to the Jade West warehouses located near Vancouver, Canada. They prefer to buy their Jade directly from the miner. After all, who knows Jade best? Now you can also make selections for both finished carvings or rough jade from the comfort of your home or office.

*" ... the best green nephrite ever found. This stuff is so*

*good it can fool you into thinking it's Jadeite."*

photojournalist Fred Ward, author of the primer on Jade

*" Jade West is the exclusive source of Polar Jade."*

Modern Jeweller, April 1998

# Company Information

From National Geographic:

*The world's major nephrite production occurs across the Pacific, from the gigantic surface deposits of British Columbia*

by Fred Ward, JADE,  
September 1987, National Geographic Magazine.

Jade West is the world's largest producer and exporter of nephrite Jade, operating three mines located in Northern British Columbia, 100 miles east of the Alaskan Border. During a short summer mining season, when the area is free from snow, Jade West annually mines 100 tons of jade for export to China. Jade West is also the exclusive supplier of the newly discovered POLAR JADE, described by FRED WARD in the Lapidary Journal, November 1998, as, "the newest, brightest, most translucent, greenest, hardest nephrite yet discovered."

The best jade from each season is selected for jewelry and sculptures created by some of the world's master jade carvers. Other jade is selected for making souvenir products and collectibles. All of these products are available exclusively through The JADE MINE, the wholly owned subsidiary of Jade West. Although a duty free item to the United States, jade is shipped from the Jade West warehouse in Washington State to avoid delays in shipping.

Jade in rough form is stored at the company's warehouse near Vancouver, Canada.
