

# ASHWOOD

62  
Sp/3324/97

- chat with Werner Gruenwald  
(contract geol. for Aquaterre) in  
Victoria (23rd) + with John Kerr  
in Vanu (24th)
- est. \$0.25 k spent on drilling  
in "1100 zone"
- one 'decent' gold 'hit' but  
generally - uneventful.  
(upslope from previous drilling)

[Note: company (Aquaterre) out of \$!-sad!]

Sonora

# Sonora Mining Seminar

Vancouver, Canada

November 10, 1992

Mining Week May 14/96

Tulsequah Chief: (Chandler) - up to 29% of gold by gravity!

Golden Bear: (Tredger) - [Mother lode (Granite) = Lucra - \$0.25M]   
 (new co.)  
 → past prod. 185K Au from mainly Cu prop.

- West zone: \$1.6M to test 10 drill targets in carbonate
- new (proposed) heap leach pad just NNE of USA dep.

AKio: (Graf) ket 28 - \$0.5M in early '96  
Taurus: (Howell): - (17ddh)

Pilldolla and JT ⇒ VMS targets  
(Jervis Inlet)

→ shear zone in Cambrian Gp. 14.

" Brown Mountain property → Ashwood - '95 - J.P. survey = several anomalies  
→ agreement with a major to take on project!

Georgia River: '96 → 11,000 1.4 opt Au

'96 - test for high-grade to west (down-plunge)  
est. \$1.9M to build rd. to tidewater (→ needs a little more tonnage).  
→ custom mill @ Premier?

Cassiar Asbestos (Barnie Kovacs):

Pilldolla ck (Vms)

92 J 4,5

92 k 8,1

Little  
Toba R.

92 k 8 E

powell R.

Pilldolla ck.

Banksback ck.

Prod. 181 m tons  
.6% Cu  
.007 opt Au

SIMILC - Steve Blower  
Tues. Apr. 12/84  
KEG '94

Reserves (Inventory)  
115 m tons @

- Excellent slides!  
(incl. airborne EM survey!)  
Chopper

~~TULSEQUAL~~  
Since 1987 ~ \$12m spent on expl'n

\$3.0m expl'n in '94

GOLDEN BEAR \$38 million for roasting plant. US #247/02 - oper. cost  
mine grade: 15 opt Au - Good slides eq. x-ser. - Ben Main + Grizzly (below)  
+ aerial (labelled) + Fleece Run  
+ Long. sec.  
Fleece Run - pre-ore felsic dyke (dated) ~ 7% of deposit ore (refractory) ct. carbonate  
Kodiak - carb. hosted (+ hem. fault group) - heap leach (non-refractory) hosted (93%)

- talk to Dunham - fax him at the mine re-copies

Ashwood - Ron McMillan - TGS photo in Monthly Report (with Aldrick) - old  
(deceased) prospector (in Stewart)

'1100 zone' - plug near by  
both: ① VMS - Eskay style - host 'turbidites' (greywackes)

Targets ② Epithermal

Stewart Area

- est. ~ \$0.2 on proj.

Nov. '93

Acquitectura

- Ron McMillan / John Kerr

Tam Waterland

Steve Todoruk

- Ashwood proj.

- literature research (old '91 Northland prep.)

grewaske/shab

chy. by # domes

matic volcs (+ pillow)

VMS target

Bosshi target?

- good geochem.

Jervis Inlet - headwaters

Pillibara Cr. VMS

(Cambier Sp? - pendant)

- new 'showing'

- float with dissem. ep. po

Atlin Area - Ron McMillan

- looking for VMS (Bosshi) pot.

- old Falconbridge prop. (#31 or 64?)

- also Bennett Lk. caldera potential
