

PROSPECT VALLEY (Merritt area) June 1/06
(Cons. Spike Ventures Corp.)

Andrew Molnar ^{helicopters supported} to provide update on current drilling program - completed 8 holes to date, testing ~150 m of strike length (of ~3.5km length)

→ ~50 m 'thick' mineralized + silica zone (~50m below surface) - ab. qtz. + banding (+ black mh.)

→ very recently, showed Teck (Paul Baxter) + Jim Mustard (Hawwood)

⇒ Great discovery!
