RACINE

\***Racine** Co-Au target (104M 048,049,050), near Tepee Peak has been staked by Westmin Resources who will conduct an exploration program in 1996.

\***Strike** (104A 068) drilling by Navarre Resources returned poor results (again). Pre and syn-project hype did not match exploration results giving the impression this project is a scam.

\*Alpine Exploration will pursue both an epithermal gold and porphyry copper targets on its **Troitsa Peak** (093E 100) property in 1996.

\*KRL Resources staked claims adjoining the MM property at Stewart bringing its holdings to 403 units. Mineral occurrences 103P 069, 083 were covered.

### OFFICE ACTIVITIES

\* Minerals North 1996 scheduled for April 18-19 in Tumbler Ridge. Enthusiastic planning committee is up and running. Agreed to give a talk and suggested other topics and speakers.

\*Review proposed Nisga'a land settlement sites (outside of core lands) and furnish mineral potential evaluation to Anne Currie.

\*Chase down 1995 Exploration Survey data and compile and interpret returns.

\*Prepare **Whitehorse Geoscience Forum** talk, slides, poster and rock display with assistance from Elaine Korschuh and Carmel Kelly.

\*Participate in Environmental Assessment meetings for **Red Chris (2)**, **Bronson Slope** and **Golden Bear** (Ursa).

\*Organize series of talks for **Smithers Exploration Group** and deliver the first one, *1995 Exploration Review*, on Nov 1.

\*Hans Smit and PJW (president of Smithers Exploration Group) met with Smithers Chamber of Commerce to plan **Northern B.C. Hospitality Suite** at Cordilleran Roundup.

\*Participate in **Regional Geology** meeting in Victoria and present *Exploration Review* to GSB audience.

\*Respond to Larry Jones on **Preservation of Geological Materials** from closing mines.

TGS needs data!
