RAIN

Mon. July 12/04
Sunny + 24°C

- with Mike Cathro
- orphan Bay (Ron (Cromber, Gordon Gibson) (+ Dave Tony (Union Sec.) + Nick (Investor) [Leo Lindinger to run program])
- access up Dawnie Ck. logging access rd
- km 16 - turn off (S of Sorcerer (to N) (up Murder Ck.))
- Test: Dark banded phyllite (same as @ Goldstream)
- Prev. work + drilling ^(8 holes) by Imperial Metals (early-mid 1990s) - didn't get to target zones (+ JV partners) (need deeper holes)
- Strong Cu-Zn soil anomaly (target = Goldstream veins - dip slope)
- Orphan Bay staked ground a ~~few~~ years ago (when Imperial let it go)
- [~ 20 km due S of Goldstream mine]
- \$370 k budget (total)
- Walk up old access rd (~ 2 km)
- Photo: Look W upslope to area of proposed drilling (near top of tree ridge to left)
- Photo: Look N over prop.

R. D. PENHALL LTD. MADE IN VANCOUVER, CANADA
DURABLE WATERPROOF

Note: Standard property to west
(mid-1970's work by Noranda)
- Besshi vms target

Mill tour with Red
- looks in good shape
- need to get ball mill (From Mt. Pelley)

Brief stop @ Genesis showing
on Mica Dam rd.

- dark banded (mine) plug 17.4e
overlain by talcose schist
(i.e. HW of Goldstream)

→ strike of (-) + Bouctouche
showing)
