T'SABLE RIVER

Mon. Aug. 13/01

Sunny 30°C

(Hillsborough)
Quinsam

- T'Sable River Coal Corp.
- with Jacques Houle + Kim Bellfontaine
- + Rick (Reclanthe) + Greg Carriere
- + Ed Tajié (Mines-Nordam)
- + T'Sable R. Coal Access off Buckley

→ bituminous coal

FSR (keep to left)
 - due west of Fanny Bay
 - on Cowie Cr.

Photo: Look W over waste dump (sandstone) + forestry Access Rd to twin-portal (before large trees)

Est. ^(total) Budget = \$5M (\$3M in 01, \$2M in 02)

Exp'n budget (01) = \$1M?

→ bulk sample ~ 90,000 tonnes(?)

- drive 2 (decline) portals
(advance ~15'/day)

(~400 ft below surface)

- coal seam ~165m down^{ward} dipping
@ 26% to N
(~120°)

38MT Reserve

(thickness of seams - up to 3m;
will take 2m)

Current tenure: → Weyerhaeuser

Note: This deposit is NOT the ^(S) LEVEL
same as 'original' T'sible R.
deposit along creek ^(i.e. to NW)
→ will haul bulk sq. to Quinsam ^(~ 3 miles)
Mine

[will pass thru 2 (small) coal seams on
way down to 'Main' zone → must
'seal off' (shotcrete) → may come
back to mine later]

Permitting Process - Tue, Aug. 7th (Jan)

Potential Problem: if ^{water} material is SALINA

Photo

Old TR mine - owned by Welwood
(i.e. 4/6 mineral rights), Current
Surface owner = Weyerhaeuser

QUINSAM Mine

exp/n ~ \$300k (30 ddh)

Photo: Look W over old CUMBERLAND coal
mine dump (recently 'capped' with ~ 1m of fill) (from WalMart)
on FIRE @ \$350k.
