FAX: 775 0313**MESSAGE:**

Dear Sir: I am working on a Ministry of Forests Recreation Inventory and would like to get information on Red Bird Mine on Haven Lake in the Kimsquit Drainage (NW edge of Tweedsmuir Park). Topo Map 93 E6 (Lat. 5906000m.N. Long 633000m. E.). I will be at the Devine phone/fax number until January 5th and thereafter at the Vancouver number. I need to know its period of operation, current status as a mining claim. What reclamation has been done or planned? How was material hauled out? There is a road to Eutsuk L. I assume it was barged out.

The answers to your questions can be obtained by using the material in our mini-research library in our office, or at the Geological Survey of Canada on 100 W. Pender St.

If you have any further specific questions, please don't hesitate to contact me.

Tom Schroeter, P.Eng.
