**Imperial to Make Offer for bcMetals**

1044 006  
886943

Vancouver (September 8, 2006) -- Imperial Metals Corporation (III-TSX), or a wholly owned subsidiary ("Imperial"), announces its intention to make an all cash offer ("Offer") to acquire all of the outstanding shares of bcMetals Corporation ("bcMetals").

Shareholders of bcMetals will be offered \$0.95 cash for each bcMetals common share which represents a premium of 46 per cent over the average closing price for the last 20 trading days to September 7, 2006.

Imperial will mail takeover bid documents to bcMetals shareholders as soon as possible following receipt of the bcMetals shareholders list. The Offer is expected to remain open for 35 days following the date of mailing. The Offer will be subject to certain conditions of completion, including receipt of all necessary regulatory clearances, absence of material adverse changes, and acceptance of the Offer by bcMetals shareholders owning not less than 90 per cent of bcMetals common shares on a fully diluted basis.

Once the 90-per-cent acceptance level is met, Imperial intends and expects, but is not required, to take steps to acquire all remaining outstanding bcMetals common shares. Imperial currently owns approximately 1.15 million common shares (3.1%) of bcMetals.

This news release does not constitute an Offer to buy or an invitation to sell, or the solicitation of an Offer to buy or invitation to sell, any of the securities of Imperial or bcMetals. Such an Offer may only be made pursuant to an Offer and takeover bid circular filed with the securities regulatory authorities in Canada. Imperial plans to file an Offer and takeover bid circular with Canadian provincial securities regulators.

Investors and security holders are urged to read the Offer and takeover bid circular regarding the proposed transaction referred to in the foregoing information when these documents become available, because they will contain important information. Investors may obtain a free copy of the Offer and takeover bid circular when they become available and other documents filed by Imperial with the Canadian provincial securities regulators on SEDAR.

The Offer and takeover bid circular and these other documents may also be obtained for free, once they have been mailed, on Imperial's website or by directing a request to Imperial.

We seek Safe Harbour.

## **Imperial Responds to bcMetals Poison Pill**

Vancouver (October 20, 2006) -- Imperial Metals Corporation (III-TSX) reports that the management of bcMetals Corporation ("bcMetals") announced today the adoption of a poison pill in the form of a shareholder rights plan. The plan has not yet been made public but bcMetals has announced that it will preclude Imperial from taking up more than 20% of bcMetals shares.

In light of these developments, together with the refusal of bcMetals to establish a special independent committee to engage in cooperative discussion with Imperial, Imperial is now evaluating the options available to it in connection with its offer to purchase all of the issued and outstanding shares of bcMetals. These options include:

- termination of its \$0.95 per share cash offer due to the adoption by bcMetals of the shareholder rights plan, the entering into an agreement to assign a 75% interest in the Red Chris project and the potential launching of a class action suit by minority shareholders of American Bullion Minerals Ltd. against bcMetals;
- reducing its cash offer to an amount below \$0.95 per share to reflect current market conditions, the payment of break fees to the Chinese company and the mounting expenses being incurred by bcMetals in response to the Imperial offer;
- entering into agreements with shareholders of bcMetals demonstrating support for the Imperial offer and lack of support for the Chinese transaction; and
- applying to the securities regulatory authorities for a cease trade order in respect of the bcMetals shareholder rights plan.

Imperial believes its \$0.95 per share all cash offer, announced on September 8, 2006 and expiring November 2, 2006, represents fair value for the shares of bcMetals.

Imperial did not seek to lock up any shareholders of bcMetals prior to making its bid, leaving the board of bcMetals completely unfettered in its efforts to canvass the market for competing offers.

As disclosed in the directors' circular of bcMetals dated October 12, 2006, the board of bcMetals did not appoint a special committee to consider the Imperial offer at its meeting of September 9, 2006. At the October 2, 2006 board meeting of bcMetals, the former chairman of bcMetals, Mr. Robert Buchan, requested that the board of bcMetals reconsider the establishment of a special committee, independent of management of bcMetals, to review the Imperial offer and potential alternative transactions. After the board of bcMetals refused to establish a special committee, Mr. Buchan tendered his resignation as Chairman and Director of bcMetals.

On October 10, 2006 the board of bcMetals, after the Imperial offer was made, entered into a conditional agreement to assign a 75% interest in the sole asset of bcMetals, the Red Chris property, to a Chinese company with ties to a Chinese copper smelter. This transaction is subject to numerous conditions precedent determinable at the sole discretion of the Chinese company, together with a number of conditions subsequent that are subject to review and evaluation 12 months after closing and that may impact the economic value of this transaction to bcMetals. These conditions are

described in the Master Agreement dated October 9, 2006 entered into by bcMetals with the Chinese company. In addition to the costs of resource verification and other transaction costs, which will be borne by bcMetals, a break fee of US\$1 million will be payable by bcMetals to the Chinese company in the event that the shareholders of bcMetals fail to approve the proposed transaction.

The market's response to this proposed transaction with the Chinese company, as demonstrated by the decline in the share price of bcMetals subsequent to the announcement of the transaction, was negative.

## **Taseko Mines to Offer C\$1.05 Per Share for BCMETALS Corp.**

**November 2, 2006, Vancouver, BC** - Taseko Mines Limited ("Taseko" or the "Company") (TSX: TKO; AMEX: TGB) announced today that it will shortly make a C\$1.05 per share take-over bid offer for all of the outstanding shares of bcMetals Corporation ("bcMetals") (TSX-V: C). The offer will represent an 11% premium over the current bid price for bcMetals being made by Imperial Metals Corporation (TSX: III). The Taseko bid will be formally initiated within the next few days and will be subject to a number of conditions, principally that 90% of bcMetals shares are tendered to the bid, the concurrent acquisition by Taseko of the minority shares of bcMetal's subsidiary, American Bullion Minerals Ltd., and rejection by bcMetals shareholders at their November 30th, 2006 special meeting of bcMetals' recently announced Limited Purpose Shareholder Rights Plan and its proposed joint venture of the Red Chris Property with Global International Jiangxi Copper Mining Company Limited.

Taseko President and CEO Russ Hallbauer stated "We believe this offer represents a solid premium over the Imperial Metals bid and fairly values bcMetals shares. It means immediate cash in the hands of bcMetals' shareholders rather than a minority position in a mine development joint venture. We will finance this acquisition from existing cash reserves".

The details of the offer will be included in a formal take-over bid circular to be mailed to bcMetals shareholders and publicly filed in accordance with applicable securities laws. The Taseko bid will also offer C\$0.02 for each out-of-the-money bcMetals share purchase warrant. Taseko intends to promptly make the necessary regulatory filings in the respect of the offer. The offer will be subject to other customary conditions, including receipt of any necessary regulatory approvals and absence of material adverse changes all of which conditions will be described in detail in the formal bid circular.

### **About Taseko Mines Limited**

Taseko is positioned to provide immediate returns and longer term growth through its large scale, long life Gibraltar copper-molybdenum mine, its advanced stage Prosperity gold-copper project on which feasibility-level studies are underway; and its Harmony property that hosts a large gold deposit with longer term development potential. All the projects are located in British Columbia, Canada.

## **Taseko'S C\$1.05 Per Share Offer For bcMetals Corp. Set To Launch November 23, 2006**

**November 21, 2006, Vancouver, BC** -- Taseko Mines Limited ("Taseko" or the "Company") (TSX:TKO) (AMEX:TGB) announced today that further to its November 2, 2006 news release, it will launch a C\$1.05 per share take-over bid offer for all of the outstanding shares of bcMetals Corporation ("bcMetals") (TSX VENTURE:C) on November 23, 2006. The offer represents an 11% premium over a recent third party offer for bcMetals. In light of intervening events, Taseko has decided to lower the tendering threshold condition for its bid from 90% to 66 2/3%. The other principal conditions remain as previously announced and include the requirement for a conditional settlement that would allow Taseko to acquire the minority shares of bcMetals' subsidiary, American Bullion Minerals Ltd., and the defeat by bcMetals shareholders at their November 30, 2006 special meeting of both the Limited Purpose Shareholder Rights Plan (or the deactivation of the plan by the Board) and the resolution to approve the proposed joint venture of the Red Chris Property with Global International Jiangxi Copper Mining Company Limited.

Taseko President and CEO, Russ Hallbauer, stated, *"As we have previously commented, this is a solid bid and should appeal to the bcMetals shareholders who would prefer to see cash-in-hand rather than hold shares in a minority participant in a joint venture."*

The details of the offer will be included in a formal take-over bid circular to be mailed to bcMetals shareholders and publicly filed in accordance with applicable securities laws. The Taseko bid will also offer C\$0.02 for each out-of-the-money bcMetals share purchase warrant. Taseko intends to promptly make the necessary regulatory filings in respect of the offer. The offer will be subject to other customary conditions, including receipt of any necessary regulatory approvals and absence of material adverse changes, all of which conditions will be described in detail in the formal bid circular.
