Clean up
issues?

— OVER —

- Draft permit ready to go Int'l Skyline
Mill - OK - staff in side

* RN wants to begin reclamation/clean up
work in '04 as well as re-initiative of
major expl'n program (to find another
SNIP or REG Au-vein). RN provided a brief 'letter'
from Ron Shon (Int'l Skyline) - re-
proposed deal.

→ Would move existing mill infrastructure (+ occupi-
ship) down (off plateau) to 'valley' facilities near airstrip
+ existing buildings (currently owned by Int'l Skyline - Dave Teagler)

→ RN also interested in acquiring placer c/s. to cover
eroded (1/2?) of Snip vein

- J E/DH stated that a Draft Letter re. Skyline's closure
plan is ready to forward to Skyline (Teagler). RN said
he would wait for that to be rec'd by Skyline prior
to following up (asap)
