In terms of expl'n expenditures? "excavated and sampled a previously untested gossanous road cut..." - \$50,40,30,20 or 10K?

I Tom, No it OK, I think I can get it from Sedar. I talked to Robin Whiteaker about it last week. He said they had some good surface chip results to release. Joe is still waiting for them to submit some slope stability info in order to build the road. At the same time there are some forestry plans in the area so they may not need to. Sounds like a good property, but it has languished for some time.
