Subject: Silver King visit

807551

Tom, please accept my belated thanks for arranging the Silver King visit. I have tried to thank you by phone (no answer) and e-mail (I had the address wrong twice.)
I appreciated the observations made by all. Your identification of the elusive Stromeyerite was outstanding. I have subsequently consulted a mineralogy text and it looks like you were right.
We have now surveyed and cut lines and soil sampling is under way. We plan to be on the market by late Sept. or Oct.

Best Wishes, Don Graham.
