property south of Marysville in order to determine best locations to collect bulk samples from.

Silver Lynx: Cassidy Gold Corp. will be commencing drilling on their Silver Lynx property west of Nelson near the end of August. The 4-hole, 600m program will test around the main showing where high grade polymetallic grab samples were collected. In other news Cassidy Gold Corp. announces that it has closed a private placement to raise a total of \$100,000.

Thanks for the contributions. Please pass on to those others who may be interested.
