

- Equity Silver warehouse - Darcy Hanson  
- Burner: Prospector  
- core Len Berg  
- Sep. 1991  
- +17°C (sum)

Best Trench: 30 m @ 308 g/t Ag

1.99% Cu

- tetrahedrite in "breccia"

host looks like a tuffaceous  
bx with sulphide matrix.

- argillite lies on top of  
min. tuffaceous bx  
i.e. stratobound!

- Hazeltin multicoloured veins

Host Rk. " Bx, carbonate & shale  
lithic frags.

Tetra - py, marcasite intergrowths

CPY

Zns? ; bn(?), covellite

chalcocite(?), Aigenite(?), native Cu(?)

Silver streak

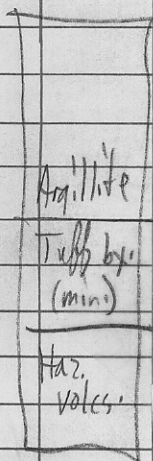

887595

(Eric)

Qtz - fsp - bio - amphibole por.  
(K-spar rich matrix)  
+ carb + apatite

Altn of por: clay / sericite

'Felted andesite flow'

30-50'

Nov. 6/02  
- chat with Dave Visagie  
→ Northair has just optioned  
this property "SILVER SLEEPER"  
(Eric) from Ed Westgate  
- plan to trench in Nov.  
at \$10,000
