MT. SKINNER

Bob + Sel

Stemmy
+15°C
Berneillo +
Francois
+ Vicki

- Brian F. Brian, Prospector, Louis Berneillo + Francois + Vicki
(Dave Visage - Proj. Geol.)
- Victoria gtz. vein on SW flank of Mt. Skinner
- vein in (shear) lineament in gtz. dip @ 070°/60°SE
- N-S lineament along trace of new rd. - later stage white (Na-rich?) intrusive
- ~~Andr~~ py + hem + tr. cpy. mainly v.g. in weathered out (pyrite) vugs in gtz.
- some evidence of 'banding'
- Traced by trenching (hand) ~100m; other gtz material 500m along strike to E towards Mt. Skinner
- constructed ~3 to 4 km rd. into site of trenches
- 'regional' prophylic alt'n
→ epidote (± chl.)
