SKOONKA

Thurs Oct 20/98

2 3/4 hr drive from Ven to Tojenn matt, Lytton Sunny +18°C

- Dave Gale] Strongbow Expl^r
- Ken Armstrong] Property 4 1/2 km NE of Lytton
- + Mike Cathro]
- ~~Angus + Duane Poliquin~~]
- ~~Ed Baker~~] [Almaden]

11 dth = 1200m completed - all on SS zone
Spent \$450k to \$500k #821n - Gmms drilling

Basalt (flows/tuffs) - dip shallow to NW
tamygales

Lapilli Tuffs

Fsp. Hld Por

Ands Flow

- clay alt'n - low mag

Discovery + SS zones

- start - to asset higher grade SS
- 3 trenches (1 - W; 2 - E) -> traced
- 50m strike parallel set 070°

Backburn ^{soil} anomaly to SE of discovery
900m x 300m
detailed soil @ 25-m intervals
~3 km NE of SS showing

Discovery - 500m strike
Soil anom. > 16 ppb Au #9

Correl. of Au + As // Hole #05 - I further
Boiling text. 200°-220° East - fluid inc ?

DUKEBAK WATERPROOF

Photo
DDA 05-08 ~ 34m - banded, narrow
black/leopard? in gtz vein

UG (several specs in gtz)

- best looking when ~ 1-m wide

Rob MacDonald - geol. on site

SW-NW 29/05
18.45 ft Au over
12.8 m of
49.5 ft
2.4 hr

Lytton First Nations - at first denied access/work, then allowed Strongbow to drive thru 'reserve'

- Drive old logging rds. ~ 1/2 hr. up "Gold Ck", via west side of property, to Skoonka Ck. valley, then S to SW to Discovery + JJ zones

* Strongbow would have liked to drill the Discovery + Backburn Anomaly areas in 2005, but access 'restrictions' negated.

2006 Plan: Extend road from the south, northwards to hook up with JJ zone area + drill Discovery + Backburn
(CORE examined + logged @ ranch en route to property ~ 4 km from Lytton)
