May 21/96

- chat with Paul Reynolds (Athlone Res.)
- option deal with Vital Pacific - operator
(Bill Gilmore, Discovery Cons.)
- '96 Budget: \$0.5 M start in July; drill-^{ing}
6-10 holes totalling 2-3000m (Britton Bros.)
- plan to base at SE end of Johnson Lk.
(Pacific Western Heli. - bidding)
- Paul also likes CROY cls.
(80,000 tons @ 3% Cu + x Au)
(would like to make deal)
- good airborne magnetic and potassium/thorium
maps with lots of anomalies
- BIG target is a porphyry system
(with several high-grade Cu-Au skarns)
- need to prospect & map cirque east of
main showing (below tarn used by Hemlo
for '95 drilling) - 1 ddh in 1990 returned
high-grade (Cu-Au), semi-massive sulphides in
a shear zone.
- > Main magnetic target (horizon) (eg. 00H 89-2) dips
shallow to east (into steep hillside)
