

SPING (Red)

Aug. 13/98

- chat with Brad Pearson - owner

→ Brad sent in several composite samples for a 'metallurgical' test (of concentrate-type material) of gold \Rightarrow values (in conc.) from 2 to >10 g/t Au [cf. very low levels in assays of rocks].

→ still (drilling) potential, along strike, to the south.

[Note: see 'Red' file - Smithers office - 108]
