

SPIRE

Oct. 10/01

- chat with John Chapman (Orphan Bay)
- ~~Orphan~~ Imperial Metals brought excavator down from Mt. Polley, & trenched 'discovery' zone up slope, along strike  
 " = great lookin' mineralization" (c)
- OB (Ron Lambert), dealing with JM (Pierre LeBell) to drill 2 holes (using drill from old stream).  
 - need 'blessing' of Murray Edwards, JM 'boss', Calgary prior to drilling!

# WILL A / GOLDSTREAM-SPIRE Nov. 25/02

- Meeting in Orphan Bay Res. office [8:30am - Noon + 2 lunch]  
(4th Floor - 325 Howe St.) - 6th Floor Meeting Rm.

Orphan Bay 'Reps': ① John Chapman ② Ron Coombes  
③ David Makepeace ④ Gordon Gibson ⑤ Ernst  
Binder (Procon Mining)

DOWA 'Reps': ① Toshiaki Suyama - Deputy General Mgr,  
Senior Geol. - Tokyo  
② Akira Sekiguchi - Chief Representative in Can.  
- Van. office  
③ Ryoichi Kataoka - Vice Representative in Can.  
- Van. office.

- DOWA is interested in:  
① securing Au-rich copper concentrate  
for its (inland) smelter in Japan  
[i.e. Au-Cu: Willa]

② Expl'n 'potential' in Goldstream camp.  
(for Besshi-type deposits) eg. Spire + C1 + new  
Bottwell, (VMS) showing.  
- also expl'n upside in Willa area.

~ 240 km trucking distance - using 3-axle trucks  
- feasibility study complete by mid-2003  
- ~ \$5M cap. cost to get Willa 'ore' to  
Goldstream mill.

TGS → SPIRE

'Exciting' new disc.

- good looking MS interse. (1.5-2m)  
~~off~~ in DPH-00-01.

⇒ SA to provide 2 slides

for NWMA

- SA. to 'utilize' MEN booth @ NWMA

Hddh E-W/dip 5-60°  
Craig Lyons Geophys. - 'challenge'  
Chris Rees - structure  
Gordon Gibson Geochem. - not working (same Zn to east)  
3m thick - semi-mass sul.,  
plus 1.5m below - MS 'pod'  
5m strike along road

SPIRE ch. A/W - dk. banded phyllite  
FW -  
ore - Goldstream type! - gtz eyes  
(higher up) - incl. garnet  
Lithol. (some) (ie. sul. replacing garnet)  
horizon from Goldstream  
Strat. - upside down (same as Goldstream)  
'race' against the intrusion
