Great Potential for High Grade High Tonnage Deposit at Strike Claim

DRILLING UNDERWAY

With the potential to make a major gold discovery this year, Navarre Resources Corp. has launched an aggressive drilling program on its 100%-owned Strike Claims. Surrounded by producing gold mines, the Strike Claims are located near deposits where millions of ounces of gold and silver have already been discovered in B.C.'s Golden Triangle.

40 Exceptional Targets Identified

These targets have been qualified by every modern geological and geophysical method.

Management- Experienced and Committed to Project

Management has extensive experience in bringing mines from the exploration stage through to production. By continuing to diligently maintain its focus of developing the Company's 12,500 acres of prime property in the Golden Triangle, Navarre believes that its efforts will be highly rewarded.

The Timing is Now.

Navarre Resources Corp. has all the ingredients thought necessary to make a major gold discovery this year.

Find out why mining professionals believe that Navarre Resources could be the mining story of 1993.

The Next Major Gold Discovery?

The facts indicate that the Strike claims could develop into the next world class gold mine. High grade gold, silver and base mineralization has already been discovered. And the geologic setting is similar to that of existing multi million ounce gold deposits.

Low production costs are anticipated, due to easy road access and close proximity to a large, modern mill.
