VISIT TO THE SUSTUT Cu DEPOSIT, BC

After many years, Falconbridge has decided to look once again at the potential of the Sustut copper deposit in northeastern B.C. We are planning to visit the area on August 17-18 with Gerald Harper, the geologist who carried out exploration on the deposit in the 1970's. We have one extra seat available in the helicopter and would like to invite Neil Church to join us. Neil has considerable experience from his past geological mapping in the region. It would be a great benefit for our understanding of the geology and mineral potential of this area if Neil could join us on the trip. Please let me know if this is possible. Looking forward to your reply.

Yours sincerely,
FALCONBRIDGE LIMITED

As discussed, Neil's participation in this trip is approved.
He should inform the following - Dave L. Tom S. Paul Woodjick.
Ron

Vic
I phoned James. He is gone until Monday. I left message OK for church to participate
Ron
