Dear Tom:

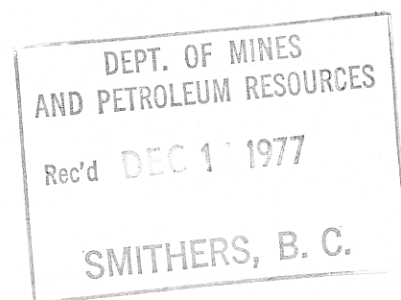

The Whitehorse escapade was enjoyable as well as being a worthwhile overview of mineral deposits in and near the Yukon. I appreciate your contribution. You may recall that I had said I would send you an abstract on the Sostat deposit that Derek Wilton and I have submitted for consideration at the IAGOD meeting next summer in Utah. Here's the abstract in all its glory. The project is coming along very nicely.

I hope to see Ed Holt soon but haven't reached him since my return to Vancouver. We'll look for some developments on that topic.

Best regards

A.J. Sinclair
