BLACKHORN MTN. -  
- Jack Copeland (owner)

PMK - White Saddle  
- Mike King (+ Jan) mother

Flotation - Hornatko adit  
2130 m 6340 ft. TGS  
CL

McDuck Adit 7165

Photos: - East end of drift  
- West End of drift

Old core in adit - dumped

Pilot says he didn't fly any  
core out & no evidence  
of any new core.

took small drill in but questions  
~~about small drill~~ if actually  
used.

- Jack Copeland & partner in  
on property a few weeks ago

- planned to drill 'conglomerate'  
which is really a volcanic tuff
