THE SNOW CREEK PROJECT

Jopec Resources Ltd has the right to acquire 100% interest in the Snow Creek properties which total over 8,000 acres in the Tillicum Mountain area of British Columbia, adjacent to gold properties that have drill-indicated reserves of 515,000 ounces of gold. Three gold-bearing horizons have been discovered so far in an area only 10 miles from a highway and hydroelectricity. A favorable combination of geology and topography provides excellent potential for developing an open-pit gold mine.
