Subject: Trail Smelter - 100th Anniversary

Last week I visited Cominco's Trail smelter. While my visit was mainly targeted to learn how their production is changing to meet new demands for metals like germanium, bismuth and indium, I also learned that the smelter is 100 years old in 1996. An item to remember given the importance of the smelter to B.C.'s economy and the pivotal role it has played in the history of southern British Columbia.

Cheers,
Dave
