

TURNAGAIN
889137 104I/TE
104I090

Sept. 13/97

TURNAGAIN

- talk with Egil Ljugard
- Bren-Mar drilled 6 holes

(31)

- 'poor' results
- First 5 holes - 'minor' - incl. upslap in treat-
- last 2 in area of main showing

Note: Egil didn't want to run this yr.'s drilling because of 'differences' with John Schuster.

CONFIDENTIAL

TURNABAIN

Sep. 26/97

- chat with Jim Marin - Inco, Anchorage
- Jim - property visit past week
- "not impressed"; will not follow up
- grade looks too low (leach scenario doesn't make sense)
- geology not that exciting

Apr. 28

Turn apart R.

- ddh to stay
in May
(+ > 1000' hole)

Bruce Downing,

TURNABAIN

July 13/98

- chat with Bruce Downing
- 3 samples collected by Graham Nixon & analyzed at CANMET (Ottawa) \Rightarrow identification of FeS (+Ni) compound = (most common in meteorites) (i.e. potentially leachable)
- \rightarrow ongoing metallurgical testing
- \rightarrow \$60k IP survey later (Aug.)
- \rightarrow further drilling (10,000 ft.) if budget (\$) avail.
- poss. of layered/zoned Ni-bearing sulphides
- initiate contacts with Tahltan.

Turnagain Sept. 4/98

- chat with Bruce Downing
 - recently rec'd previous work data from Falconbridge (thru ^{Winning office} ~~Samie~~)
 - no further work in '98 → no \$
-

- chat with Bruce Downing Oct. 6/98

- still looking for need ~ \$30,000 to complete metallurgical testing incl. "full-blown" flotation & pressure-leach studies (prelim. work "very encouraging").
- Falconbridge interest/analogy to Mt. Keith (Australia) ^{1990s} ~~leached~~ Ni deposit
- key is the metallurgy at Mt. Keith (& thus at Turnagain!)
- Falconbridge 'watching'.

TURNBURN RIVER

May 19/99

- chat with Bruce Downing (on behalf of Brem Marley)
- cont'd metallurgical (pressure oxidation leaching) testing
- due diligence signed with Billiton (QNL - Australian subsidiary) - samples recently shipped to their lab in South Africa for BIO-LEACHING
- Announcement later this fall?
- recover Ni, Co, Cu, Pt, Pd, Au, Ag

TURNAROUND

Aug. 27/99

- TOS chat with Bruce Downing
- BD 'discussed' at Bren, Mar's (mgt.) actions (i.e. lack of)
- Have only spent a minor amt. on ground in '97 (no drilling)
- Sept. 16th - meeting with QNC (Billiton - Australia) re - teaching potential.

Oct. 12/01

Victoria-GSB Review

[13] PGEs in ~~Stream~~ ^{Seas} - Lett/Jackaman

- Giant Mascot area - re-analyse RGS → PGEs (1:50,000)

- i) Turnagain R. 11.4 ppb Pt, 13.7 ppb Pd (silt)
- ii) Wreede Chromite 11.1 " 5.7 " (silt)
- iii) Giant Mascot 8.9 10 (mass mat)
- iv) Jason 93.8 Pt

- higher Pt, Pd in me me

94C - need to re-analyse for Pt, - Polar's dep.

[14] RGS - Jackaman, 93D - Bella Coola, Triumph Bay Survey (beta Eestall/Haekhsberry & Khutze R. surveys)

[15] Bobrowsky: Till Geochron Modelling - 6 days - Merritt area 92°E/2 & 7

[16] Sunshine Coast Aggregate Bichler

[17] Bobrowsky - Aggregate - (2000)

TUAN ABAN

Apr. 18/07

- chat with Neil Fiac @ Minerals North (Tennessee)

* recent contacts - i) Noril'sk;
ii) Jinchang (China); ~~iii) Xstrata Ni~~

* - possible new Ni smelter in Finland?

* Hard Creek ^(Tony Hitchens) pending visit to Mt. Keith proj. (analogue) in Australia (1877-etc)

* CONF. - 50,000 yd.
- Cap. Cost ~ \$1B
- 2011 - start construction?
