Mount Polley Southeast Zone Application

September 15th, Williams Lake

Cariboo Miners Association (Tentative)

September 16th, Quesnel

Northern Managers Meeting

September 27th, Prince George

Northeast Mine Development Review Committee -

Hillsbrough Resources - Five Cabin

September 28th, Dawson Creek

BC Trappers Association

September 29th, Dawson Creek

Field Visitation

Peace River Coal Fields

(Barry Ryan, Jenny Macauley, Bob Lane)

During week of August 9-12/05 nine sites were visited as part of an exploration monitoring and/or Gething Formation coal sampling program. Properties included (with brief comments):

Willow Creek Mine (Falls Mountain Coal): Gething Fm PCI coal; operating at 0.9M tpa; washery under construction & expected to be completed by end September; Pine Pass exploration target (north of Pine River and Hwy) to be visited August 22.

Goodrich-Peace River (Kennecott): major RC drilling program on old Gulf Canada ground to test potential for metallurgical grade coal in Gething; program will continue well into fall

Dillon Mine (Western Canadian Coal); Gething Fm PCI coal; mine received amendment to Mines Act permit to increase production to ~1M tpa; coal measures contained in two seams in tight syncline; exploration on down-plunge (toe) of pit may add to reserve base

Lossan (Cline Mining); RC drilling, bulk sampling and coal quality testing program in Gething Fm coal with metallurgical potential; also part of old Gulf Canada ground; u/g sampling focused on 5.5m thick No.1 Seam; program completed/reclaimed

Quintette/Babcock Mountain (Elk Valley Coal): major RC drilling program in Gates Fm coal measures on flank of Babcock Mountain; intent of program is to expand known clean coal reserve of ~27Mt in the Little Windy, Big Windy, Window and "Window Extension"

Five Cabin (Hillsborough): Gates & Gething fms metallurgical coal; 100 RC holes completed so far in 2005, plus trenching; company plans to extract one or more bulk samples before end of year on the Barbour, Horizon and Ridge North and/or Ridge South zones

Trend Mine Development (NEMI): construction of Trend Small Mine well underway with pit area
