Gord: Contact Larry Jones in our Victoria office to arrange to look at data. I assume the reports are listed by NTS on our website, under "Property Reports". If you can determine that there might be some reports available in the "Property Files", you might consider making an appointment to view them in Victoria (or, if Larry would mail them to this office, you could look at them and copy them here?).

Tom-

Last month you mentioned to me that Placer's data from B.C. was stored and available in Victoria. Could you let me know ASAP how I can get ahold of some of the data? Have just done some field work on the old Windy Property and looking for some specific info they probably have in their files. Thanks

Gord Richards

Barney, glad to hear that you've finally got a 'promo' package available. That area is really heating up. I suggest that you, Gord and I get together sometime over the next few weeks to discuss. I am traveling a fair bit over the next few weeks Whitehorse - next week; Victoria the following week; Spokane the week after that), so I have to watch my 'time' very carefully. I'll try my best to fit into a time for you guys.

Tom

Hi Tom,

Gordie Richards and I are hoping to distribute some more summary reports on our Windy property to a number of companies over the next few weeks. You had mentioned that there may be some companies new to the B.C. exploration scene who may be looking for a Cu-Au porphyry opportunity. Would you have any names of companies and contacts (with telephone #'s or e-mail addresses, if possible) to whom we might try and market the Windy property?

Thanks for any assistance that you can offer.

Regards,

Barney Bowen

P.S. Did you watch the CFL Western Conference final this past Sunday? A great game - I was there and my (still) hoarse voice reminds me just how much noise I, along with 55,000 others, made every time that the Regina offence lined up on the line of scrimmage.
