

LEGEND

Alteration and Vein Mineralogy

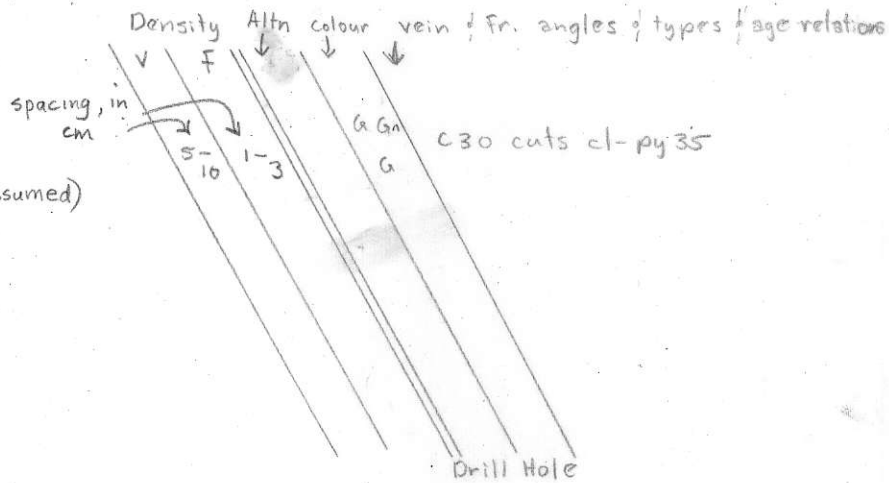

- C Carbonate
- bhc bleached halo carbonate
- cl chlorite
- cl-py chlorite - pyrite
- dol dolomite or ankerite?
- bk black fractures and replacement - carbonate?

- mag magnetite
- cpy chalcopyrite
- py pyrite
- qtz quartz
- cdy chalcedony
- bl bleaching
- c carbonate
- cl chlorite
- ep epidote
- po pyrrhotite
- InP Interpillow zones (cdy, cl assumed)

Colour

- pGn pale green
- Gn Grey Green
- Gn Green
- oGn Olive Green
- G Grey
- dG Dark Grey
- pG Pale Grey
- mG Medium Grey
- ApGn apple Green

LEGEND - Alterations

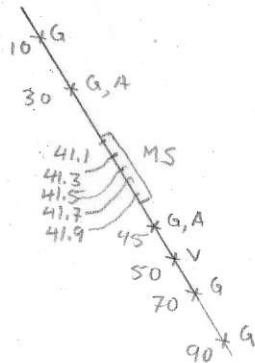

LEGEND - Samples

Reasons

- G Geochem
- R Rock type
- A Alteration
- V Vein or Fracture Mineralogy
- InP Interpillow zones
- MS Massive Sulfide
