Field - 1996

Friday August 9

896474

222nd day / 144 to come

8:00 Flight out (Northern Lights) to Lovell 0800
 8:30 Cove. Met by Paul + Gary. 0830
 9:00 Toured the north end of 0900
 9:30
 10:00 the Silika belt - western sed. 1000
 10:30 belt (limestone -- sampled for cones) 1030
 11:00 and conglomerate. Then through 1100
 11:30 the volcanic belt -- pillow basalt, 1130
 12:00 fragmental volcs --- sort of felsic lat 1200
 12:30 -- not obviously so... then the western 1230
 1:00 ~~volc~~ sed belt - graywackes - good 1300
 1:30 sed structures and conglomerates. 1330
 2:00 Then looked at some Cocho Ck 1400
 2:30 adjacent to the contact (pillow basalt) 1430
 3:00 before going to Mt Ogden jade - 1500
 3:30 inactive. Horrible road! 1530
 4:00 Picked up ~ 6 by Bob - Pacific 1600
 4:30 western Hel. to go to Kemess where 1630
 5:00 we met Larry, had dinner + 1700
 5:30 got settled in. Weather turned 1730
 6:00 in PM + got rain at Mt Ogden + enroute 1800
 6:30 to Kemess. 1830
 7:00 1900

223rd day / 143 to come

with Larry Diakow

8:00	Helicopter ^(cost) via Jim Dawson's	0800
8:30	camp to Surtout copper deposit -	0830
9:00	Menzln in bedded layers under	0900
9:30	a more massive multi-lithic volc	0930
10:00	fragmental unit (also locally bedded)	1000
10:30	with Tabla clasts. Menzln oxides, assoc	1030
11:00	is epid. altn - Stratabound but	1100
11:30	there are menzln fractures (feeders	1130
12:00	in part?) that cut higher in the	1200
12:30	stratigraphy. Mal chrysso cct nature	1230
1:00	cu + bornite seen.	1300
1:30		1330
2:00	Noon pick up [THANKS JIM] then to	1400
2:30	Kemess North until 6:35 PM.	1430
3:00	Ridge capped by Tsodoffone gray	1500
3:30	date unit underlain by Tabla.	1530
4:00	Pyritic halo/gossan seems bounded	1600
4:30	by the contact - lower permeability?	1630
5:00	local xcutten fs ppy dikes - pink	1700
5:30	but not Kspar I think.	1730
6:00	Pyritic halo has ep + chl altn -	1800
6:30	propylitic zone. Deposit not exposed	1830
7:00	at surface - in cirque floor. Stronger	1900
	altn is sericitic + argillic.	

After dinner - went to test pits - oxide
 cct / native cu + pyrore (0.14% cu
 4 gm Au) - gray fs ppy - Larry saw biotite gtz
 phenos) cut by gtz py ± cpy veins - local
 Kspar altn as pods ~~Barren~~ veins.

Sunday August 11

224th day / 142 to come

- 8:00 Ron returned to Victoria (flight was late) 0800
- 8:30 Larry straightened out scheduling foulup 0830
- 9:00 0900
- 9:30 Traversed (truck to field dump, walk) 0930
- 10:00 with Paul Mitealy - saw chert 1000
- 10:30 (with rads I think) cherty siltstone 1030
- 11:00 then take any ppy & volcan - 1100
- 11:30 elastic rocks to the ridge. Over 1130
- 12:00 the ridge we found QEP - coarse 1200
- 12:30 grained - dikes then trending 1230
- 1:00 ~ 130 & cut by 075 faults. 1300
- 1:30 - traversed along ridge, then down 1330
- 2:00 a drill road - found a subcrop 1400
- 2:30 of wh. xltne limestone - part of 1430
- 3:00 the chert package. Chert package 1500
- 3:30 dips ~ 11° into the hillside - some 1530
- 4:00 similar bedding in Talika, but 1600
- 4:30 also some north & steep dipping 1630
- 5:00 (near a rusty zone - faulted?) 1700
- 5:30 A good day... odd spits of rain... 1730
- 6:00 Paul positive on Larry's handling 1800
- 6:30 of the crew albeit guarded at times 1830
- 7:00 still too much me in Larry's approach. 1900

AUG

☞ The need for central of all details (he hands out air photos & maps for travs. etc. is still there but 'softer' now. Chatted for about 2 hours in the evening in office, Branch future, Clusbach, etc.

225th day/141 to come

- 8:00 Slept in tent 645 - alarm not working. 0800
- 8:30 Had bkfst, saw Larry + Paul off 0830
- 9:00 (0730 setout) then packed + did diary. 0900
- 9:30 0930
- 10:00 Spent ~1 hour on hole 113 in 1000
- 10:30 Keness south - got a fair 1030
- 11:00 picture of the alteration + 1100
- 11:30 mineralization (collected 3 1130
- 12:00 specimens). Then the 2 Chris's 1200
- 12:30 ran me down to the Sturdee 1230
- 1:00 strip, where the Kenair 100 1300
- 1:30 (8 seater) plane came in from 1330
- 2:00 Northern thunderbird - 8 people 1400
- 2:30 came in, I was the only out 1430
- 3:00 passenger, so got the copilot's seat. 1500
- 3:30 In PA - got the rental car, 1530
- 4:00 phone Theresa, then headed for 1600
- 4:30 Granisle. I met Steve Cook + his 1630
- 5:00 helper + ate dinner with them, then 1700
- 5:30 Don + Ian (with Andy) arrived + 1730
- 6:00 we boated to then camp on the 1800
- 6:30 NE arm of Babine Lk north of 1830
- 7:00 Little Fort. 1900

AUG

☞ The surficial crew was also there - ~~Steve~~ Vic Erin + Dan.
