NORANDA INC.

[NOR-T] 246,206,521 SHS.

PHASE II PROGRAM UNDERWAY - J. Paul Stevenson, CEO, reports
Pacific Booker Minerals Inc.

has received permitting to begin Phase II of the exploration program
on its Morrison/ Hearne Hill copper, gold porphyry project located
in the Babine Lake copper belt about 65 km northeast of Smithers,
north-central BC. The Phase II program is now underway.

Pacific Booker holds a 100% option on the Hearne Hill part of
the project, subject to a 4% net smelter return royalty, and can earn a
50% interest in the adjacent Morrison ground from Noranda Inc.

Phase I successfully improved grade and continuity of the
previously delineated deposit. Significant gold and silver values
were also confirmed. Drilling established the deposit boundaries are
open to the north, northwest and west to date, the deposit boundary
has been extended over 200 metres to the west by trenching and
drilling.

The current program consists of diamond drilling, trenching, induced
polarization and magnetometer surveys to determine the size and
shape of the mineralized body. (SEE GCNL NO.176, 14Sept2000,
