## DRC RESOURCES CORP.

[DRC-CDNX] 6,668,016 SHS.

AFTON ZONE EXPANDS TO SOUTHWEST - John Kruzick, president,  
reports DRC Resources  
Corp. has completed 14 diamond drill holes on the Afton Mineral  
Zone at the 100% optioned Afton Mine Project located 10 miles west  
of Kamloops, south-central BC. (SEE TABLE OF ASSAYS  
OVERLEAF P.1) -CONTINUED ON PAGE TWO-

## DRC RESOURCES CORP.

[DRC-CDNX] 6,668,016 SHS.

CONTINUED FROM PAGE ONE - Drilling has extended the zone for  
an additional 150 feet along trend  
to the southwest, and indicates a zone of at least 700 feet in length,  
and still open in all directions. Drill hole DDH2K-12, drilled at  
68°/250°, intersected the mineral zone on average 125 feet southwest  
along trend from DDH 2K-11. Drill hole DDH2K-10, drilled at  
86°/270°, was drilled to intersect the zone below drill hole DDH 2K-  
7.

Drill hole DDH 2K-12 intersected 590 feet of 3.04% copper  
equivalent, including a higher grade interval of 230 feet grading  
3.45% copper equivalent. Hole DDH 2K-12 was suspended at 1,310  
feet due to broken ground conditions when it was intersecting 5.46%  
copper or a 7.32% copper equivalent over a 1-foot interval.

Drill hole DDH 2K-15, drilled at -73°/250°, is presently drilling  
to intersect the mineral zone below drill hole DDH 2K-12. Drilling  
has confirmed the continuity of the mineral zone along trend and  
indicates the copper mineralization and grades increase to the  
southwest and to depth. A drill plan and cross sections can be viewed  
at [www.drcresources.com](http://www.drcresources.com). (SEE GCNL NO.180, 20Sept2000, P.1  
FOR PREVIOUS AFTON MINE PROJECT INFORMATION)

## DRC RESOURCES LTD. AFTON MINE PROJECT NEAR KAMLOOPS, BRITISH COLUMBIA

### Assay Intersections for DDH 2K-12

Core Length	Depth	Copper	Gold	Palladium	*Silver	**Copper Equivalent
100 feet	580-680 ft	0.83%	0.030 oz/t	0.003 oz/t	0.126 oz/t	1.54%
590 feet <i>(including)</i>	720-1310 ft	2.22%	0.036 oz/t	0.003 oz/t	0.245 oz/t	3.04%
230 feet <i>(and)</i>	800-1030 ft	2.57%	0.025 oz/t	0.002 oz/t	0.277 oz/t	3.15%
230 feet	1080-1310 ft	2.50%	0.045 oz/t	0.003 oz/t	0.228 oz/t	3.45%

### Assay Intersection for DDH 2K-10

Core Length	Depth	Copper	Gold	Palladium	*Silver	**Copper Equivalent
180 feet	1150-1330 ft	1.01%	0.017 oz/t	0.001 oz/t	0.186 oz/t	1.43%

\*ppm converted to oz/t
