## INTERNATIONAL WAYSIDE GOLD MINES LTD.

[IWA-CDNX] 32,589,013 SHARES 44,000,000 DILUTED SHARES

HOLE NO.	INTERVAL FEET	LENGTH FEET	GOLD GR/T	GOLD OZ/T
NO. 10	157.9-242.6	84.7	24.65	0.719
INCLUDING	196.1-240.6	45.5	42.925	1.252
PLUS	300-330	30.0	3.50	.102
NO. 11		17.0	LOW GRADE	GOLD
HOLE 12	199.3-257.0	57.7	20.96	0.60

R.E. [Ned] Reid, P.Geol., project manager for the Cariboo Gold project for International Wayside Gold Mines at Wells, 100 km east of Quesnel, central B.C., has reported the high grade assays in the table above from holes No. 10 and 12. (See drill hole location map overleaf P.3 this letter and assay results from previous drill holes in GCNL No.66, April 4, 2000)

Drilling is continuing on hole No.15 at -66° from the same site a hole No.13 drilled at -45° and hole No.14 at -57°. Pyrite mineralized sections in holes No.13, 14 and 15 are being logged, split and assayed. Results are expected in about 10 days, April 17, 2000.
