## CREAM MINERALS LTD.

[CMA-V; CRMXF-OTC BB] 10,473,287 SHS.

KASLO EXPLORATION UNDERWAY - Ellen Conville, corporate secretary, Cream Minerals Ltd., reports an 800-foot diamond drilling and trenching program has started on the 100% owned Kaslo silver property located six miles west of Town of Kaslo, southeast BC. The main targets for the program are the northern extension of the former Cork-Province Mine (the Cork-North zone), the Bismark zone (where recent drilling intersected 10 oz. silver/ton and 1.65% combined lead, zinc across 9.3 metres) and the Black Bear sulphide showings.

Additionally, bulk samples are being taken for metallurgical testing at the large Silver Bear zone located in the southern portion of the property. (SEE GCNL NO.130, 8Jul99, P.2 FOR PREVIOUS KASLO PROJECT INFORMATION)
