SNOW-WATER RESOURCES LTD. (SNW-V)

DRILL FUNDING SOUGHT - Snow-Water Resources Ltd. has reported the 1987 trenching program on the Whitewater gold property near Nelson, B.C., located six new discoveries, two of these being extensions or parallel veins on the Whitewater vein system. Assay received from one of the discoveries is as follows: 0.25% O.P.T. gold, 1.72 O.P.T silver, 9.20% zinc and 3.83% lead. These are all of significance and prime drill targets. Engineering reports are being prepared. Subject to regulatory approval a major financing will be done for a 1987 through 1988 drilling programme.
